STATEMENT OF FACTS (begin here):

Your Honor, I respectfully request that this citation be dismissed based on the statement as set forth herein. Moreover, kindly accept this correspondence as my formal plea of not guilty.

I received a Notice of Traffic Violation in the mail from the Automated Red Light Enforcement. The notice indicated failure to stop at the red light in violation of California Vehicle Code Section 21453(a). On Sunday, May 7, 2017, I was traveling southbound on A Drive towards East B Boulevard. On said day and location,

Explain the reasons for which you believe the ticket should be dismissed. The explanation must be clearly written with factual, technical or legal arguments to justify the dismissal of the ticket.

In order to formulate a CVC 21453 (a) defense statement, it is important for the defendant to address issue based on method of enforcement (officer issued or red-light camera).

Here are the red-light ticket related issues:

- 1. Traffic signal timing**
- 2. Visibility**
- 3. Signage**
- 4. Yellow time**
- 5. Street geometry**
- 6. Line of sight**
- 7. Weather conditions**

Each of these issues has a different defense strategy. Basically, the defendant must have enough knowledge about each of these issues to prepare a clear statement and identify the reasons for which the red-light ticket should be dismissed. However, to clearly present an argument it is necessary to have the knowledge about traffic signals and red-light enforcement.
